

# THE BROKEN HILL MINERAL CLUB

---

Is a group of amateur mineral and gemstone collectors based in one of the most mineral rich areas of the world - Broken Hill.

The club meets on the first Monday of each month at our room behind the "Men's Shed" - part of the Community Centre Complex in Beryl Street at 7:30 pm.

Field trips to collecting locations throughout the district are organised each month from March to November and usually held on the third Sunday.

Lapidary workshop are held at regular times at our clubroom where members can learn techniques in cutting, polishing and faceting gemstones.

Any persons interested in minerals and gemstones are invited to become members. A small annual membership fee covers all costs including insurance and the postage of newsletters.
